Thursdays, November 29—December 13

OPEN HARDWARE LAB

Every Wednesday between the hours of 8am and 4pm we will have a technician at the Computer lab waiting for you to bring in your very slow, broken, needing upgrading PCs! Here is a brief list of things we can help with: Fixing Slow or Broken Machines, Upgrading software /Transfer data, making sure your PC is Protected, and Upgrading Computers. Just stop by or call and make an appointment. This is an incredible opportunity, don't miss it! Keep in mind if you need any hardware or non-free software you will need to purchase it. Sam will assist in getting you the necessary software and hardware. (If you need to attend later than 4pm, please contact Sam to set up an appointment)

TABLETS (USS/MWS)

In the Kindle Fire class, we will discuss configuring the device for your personal digital services, synchronizing data to and from cloud services, how to add media from outside a cloud service, adding access to Google Play and how to make the device safe for use by kids. Student cost for this class is \$30. This must be paid the first day of class.

ALEXA & OTHER PERSONAL ASSISTANTS (USS/MWS)

More so than any other technology company, Amazon and Google have been at the forefront of new internet-enabled devices for the home. If you have, or would consider buying an Alexa or Google device, find out about all the additional devices and technologies that are available, such as the Echo Spot or Echo Connect, Google Mini, and how to integrate those devices with cameras, lighting and other smart appliances. Student cost for this class is \$30 for either the Google Mini or Echo Dot

WIRELESS HEADPHONES (USS/MWS)

Do you understand how wireless head phones work? Is it worth it to buy the \$200 one's vs the \$20? Come to this class and learn the differences between many of the most popular types and brands available. Cost of this class for the students is \$20

WIRELESS PRINTERS (USS/MWS)

Do you have a wireless printer or do you plan on purchasing one? Are you having problems working with it or setting it up? In this class you will set up your own wireless printer and then how to troubleshoot it if it is not working. Sam gets tons of questions on wireless printers, now come get yours answered! The student cost for this class is \$30. This must be paid the first day of class.

SUBLIMATION (MITTAL)

Come let your creative side come out. Sublimation printing is the process of placing pictures and sayings on Tin Boxes, Wooden Boxes, Key Chains, Coasters, Mugs, License plates, Puzzles, etc. Come to either of these classes, pick your picture, pick your saying, pick your items of choice and make wonderful customized beautiful items! These make great presents and keepsakes!

SUBLIMATION FOR KIDS (CEI)

What a better way to spend a Saturday then with your kids learning about the sublimation process and creating awesome custom items. Come to these classes and make beautiful keepsake Valentine's day gifts, birthday gifts, Easter Keepsakes, Mother's day or Father's day presents, plus a whole lot more. The Doors open at 9am.

PAINT AND PRINT CHRISTMAS CARDS (USS/MWS)

This is a 2-week class. Week 1 you will paint a picture with Kim Riley and on week 2 you will scan in that painted picture and create your own customized Christmas cards! This class was a HUGE success last year, so make sure to sign up early!

FITBIT FITNESS TRACKERS (USS/MWS)

So, you REALLY want to get healthy in 2018. This class will help you begin. We will show you some of the best web-sites for exercises, motivation, healthy menus, keeping track of daily food intake and much much more. Make yourself a priority today! We will also talk about the different types of Fitness Trackers, showing you the pro's and con's of several different models. The students cost for this class is \$40.

KODI AND RASPBERRY PI (MITTAL)

The Raspberry Pi 3 is a tiny computer about the size of a credit card but comes with endless possibilities for everyone from programmers looking to create fun new projects to students learning about programming in the classroom. With the additions of Bluetooth and Wi-Fi, the Raspberry Pi 3 is able to be used as a central hub to connect smart home devices and sensors. As part of this class you will receive a Raspberry 3 to use and keep at the end of the class. Come see what everyone is talking about.
